### Descrizione :

Ready for a snowball fight? The 4 small rogues are!

Outfitted with scarf and hat, they are perfectly equipped for the cold season. The penguin children are just waiting for the start sign, because a few snowballs are already prepared. The large iceberg offers a perfect starting point for the fun in the snow.

Even in the dark, they are real eye-catchers, because they are enlightened with cool white LEDs discreetly from the inside.

The protection class IP44 - splash-proof - also allows outdoor installation in sheltered areas. It is that simple:

For operation, permanently connect the scene to the power supply with a 1.70 m long supply cable. Then she blows up to his full size on his own. The stable stand is ensured with additionally included mounting cords, which are attached to the top of the iceberg and the ground.

After the season, the figure can be folded up again to save space and wait for its next big appearance.
