### Descrizione :

GILDO is no ordinary clown - with his eerie charm and frightening laugh, he will give the guests at your Halloween or theme party goosebumps.

The animated Halloween figure from Europalms consists of the torso of a clown in a tattered, white robe with black pom-poms. His head appears in a spooky shade of gray, while his long hair comes in a vibrant shade of black. The typical clown paint is completely black and his broad grin reveals black and yellow teeth. His arms can be effortlessly bent into shape, allowing you to adjust his posture and expression as you wish. The grotesque limbs - skeletal hands with skinny bones that appear almost superhumanly long - also reinforce his eerie appearance. But the creepiest thing about Gildo is his gruesome laugh, which sounds while his eyes flash dangerously red.

The deco figure's animation can be activated using the integrated microphone or wired manual control.
