Descrizione :

When gravity turns into a moment of terror.

Lurking in dark corners, above narrow passageways, or hidden high above, fall mechanisms unfold their full effect. The abrupt fall of a figure from seemingly nowhere uses one of the oldest effects of horror: the sudden loss of control. This is exactly where the Fall Motor comes in, bringing movement, excitement, and unpredictability to any Halloween scene.

The EUROPALM Fall Motor is a compact motor block designed to trigger controlled falling movements in Halloween figures, spiders, or other hanging decorative elements. The motor is attached using an adjustable Velcro strap, allowing for flexible and secure mounting. Suitable attachment points include trusses, ceiling beams, railings, stair structures, pavilion struts, or sturdy branches. This makes the Fall Motor equally suitable for professional event organizers in event halls, tents, or amusement parks, as well as for private decorations in the house, on the balcony, in the carport, or in the garden.

A spring with a sturdy carabiner is located on the underside of the motor block. Halloween figures, spiders, or other lightweight decorations with a maximum weight of 1.5 kilograms can be securely attached using this carabiner. The integrated spring ensures smoother movement and reduces jerky motion during the fall. To ensure trouble-free operation, make sure that the cord can be fully unwound. Only with sufficient drop height can you prevent the cord from becoming tangled or blocked and losing its effect.

The Fall Motor is a versatile technical basis for dynamic horror effects and complements both animated Halloween figures and classic hanging decorations. When positioned correctly, it creates an unforgettable moment of surprise that makes every scene feel lively and unpredictable.

Logistica

EAN / GTIN: 4026397753332

Peso : 0,66 kg

Lunghezza : 0.15 m

Larghezza : 0.09 m

Altezza : 0.18 m

Features :

- Animation time up to 45 seconds

Dati tecnici :

Alimentazione elettrica:	5V DC O 6V DC
Potenza totale installata:	3 W
Grado di protezione:	IP20
Classe di protezione:	CL III
Allacciamento elettrico:	Alimentazione dell'energia elettrica tramite USB C (F) versione da incasso Pila/Batteria ricaricabile (non in dotazione)
Pila:	4 x Mignon (AA) (non in dotazione)
Effetto:	Via motion sensor, acoustic sensor or button Time up to 45s
Carico massimo:	1,5 kg
Colore della custodia:	Nero
Collegamenti:	Ingresso: microfono via 1 x presa jack (stereo) da 2,5 mm versione da incasso Ingresso: sensore di movimento via 1 x presa jack (stereo) da 2,5 mm versione da incasso Ingresso: interruttore a pedale via Jack da 3,5 mm (mono)
Stagione:	Halloween
Misure:	Larghezza: 15,3 cm Profondità: 7,2 cm Altezza: 10,2 cm
Peso:	0,57 kg
Lunghezza cavo:	3 m
Tipo connettore:	Jack da (stereo) da 2,5 mm
Lunghezza cavo:	3 m
Tipo connettore:	Jack da (stereo) da 2,5 mm

Contenuto della confezione:

- 1 x Dispositivo
- 1 x ganci
- 1 x sensore di movimento
- 1 x microfono
- 1 x cacciavite
